## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claim 48** is rejected under 35 U.S.C. 102(e) as being anticipated by Bates et al. (US 6,741,680 B2).

Regarding **claim 48**, Bates discloses a messaging system [column 1, lines 7-11], comprising:

a server storing each of a plurality of messages associated with at least two attributes [RAM 104 is used for storing volatile data; it includes a greeting file 111 containing one or more pre-recorded voice greetings to be played over the telephone line to a caller when the user does not intercept the telephone call; message in file 112 containing voice messages left for the user by callers; and sorting profile 113 containing data used to sort messages for playback, as further described herein, column 2, line 65 to column 3, line 30]; and

a telephone based voice user interface unit categorizing and retrieving the plurality of messages in accordance with an order request by a user identified therein, where at least one of the at least two attributes corresponds to at least one non-user-

defined field in an address book [Sorting profile contains a header 201 and a variable number of caller entries 202. The header includes a mode field 203 which identifies a sorting mode for playback of messages recorded in the message system, and may contain additional fields such as profile length specifying the length of profile 113, etc. Each caller entry 202 contains a caller ID field 204 and a priority field 205, column 3, lines 31-45].

### ***Allowable Subject Matter***

3. **Claims 1-29, 44-47 and 52-63** are allowed.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
